Education

National Institute of Technology, Kurukshetra

Masters of Computer Application, CGPA: 7.90

August 2022 – present

Kurukshetra, Haryana

BBD University

Bachelors of Computer Application, CGPA: 8.34

July 2018 – May 2021

Lucknow, Uttar Pradesh

Experience

Full Stack Developer Intern

Levithan Technologies Private Limited [Certificate](#)

January 2025 – Present

Faridabad, Haryana

- Developed an Admin Dashboard using React.js and Tailwind CSS, enhancing UI/UX for efficient data management.
- Built a mobile application using React Native, implementing responsive design and smooth navigation.

Software Engineer Intern

Codehop Interfusion Private Limited [Certificate](#)

January 2024 – July 2024

remote

- Developed and implemented features for the company's official website using React.js, Redux Toolkit, Tailwind CSS. Projects included hiring management, attendance tracking, interview scheduling, and leave management, resulting in a 15% increase in website traffic.
- Led a team of 6 interns through the project lifecycle, establishing coding standards and implementing tools to streamline development practices.

Personal Projects

Placement Pilot | [Typescript](#), [Next.js](#), [React.js](#), [Express.js](#), [MongoDB](#), [Socket.io](#), [TailwindCSS](#), [Redux](#)

[Github](#)

- Implemented JWT-based authentication with role-based access for students and teachers.
- Designed and deployed features that allowed teachers to create, edit, and manage question papers.
- Provided students with the functionality to take mock tests at scheduled times.
- Integrated performance tracking for students, including detailed analytics and visualizations using Chart.js.

Wex Board | [Next.js](#), [React.js](#), [Convex](#), [Tailwind CSS](#)

[Github](#)

- Implemented user authentication with Clerk, supporting multiple providers.
- Integrated Convex as the backend to manage persistent drawing data.
- Utilized Liveblocks to enable real-time collaborative drawing capabilities.

Skills

Languages: C, Java, HTML, CSS, JavaScript, TypeScript, Python

Technologies: Next.js, React.js, React-Native, Spring Boot, Express.js, Redux Toolkit, Tailwind CSS, Node.js, Jira, Agile and Scrum, MySQL, MongoDB, Git, GitHub, Docker, AWS.

Course Work: Data Structures and Algorithms, OOPS, Operating Systems, DBMS, Computer Networks, Web Technology.

Achievements

- Awarded the 'Rising Star of the Month' during my Software Development Engineer internship at Codehop Interfusion for exceptional performance and effective teamwork management. [Certificate](#)
- Solved 1000+ questions on Leetcode and other coding platforms; ranked 4604 out of 35721 in Biweekly Contest 139, placing in the top 13% of participants. [Profile Link](#)
- Placed in the Top 20 teams out of 500+ teams in the TinkerQuest hackathon conducted by the Tinkering Lab, Indian Institute of Technology, Roorkee. [Certificate](#)
